

The best detergent for inefficiency is **SAP Business One**

Ever since its founding in 2012, the Jordan-based Lamis Detergent Industrial Company has carried on the longstanding tradition set by its parent company, Lamis Industrial Group of Chemicals, by providing high quality personal care products, as well as household and industrial detergents, marketed under the company's three brands: Lamis, Touri and Roxol. When Lamis resolved to integrate their data and processes, they turned to SAP Business One and the implementation experts at SkyTech to provide them with a centralized data platform capable of seamlessly integrating existing portals and systems, a state-of-the-art inventory management tool and optimized one-click financial and tax reporting, resulting in a clean break with obsolete, less efficient legacy systems.

Before: Challenges and Opportunities

- Desire to integrate portals, data and processes onto a centralized platform
- Need to optimize inventory and warehouse operations
- Aspiration to simplify and accelerate end-of-the-month, tax and financial reporting

Why SAP Business One and SkyTech

- Solution provides a scalable, integrated platform, accessible 24/7 from any device or location
- Solution offers real-time data, instant one-click reporting and cutting-edge stock management tools
- Partner provided a high level of support and expertise

After: Value-Driven Results

- Process integration onto a single platform that seamlessly interfaces with the Cash Van System and other portals
- Greater system accessibility, 24/7, from any location and device
- Streamlined monthly closing with one-click reporting for taxes and financial statements
- Enhanced oversight and monitoring capabilities

“We feel like our future goals will be easier to achieve with **SAP Business One. We recommended the whole company invest in and implement this ERP.”**

**Nizar Osama Habboub, General Manager,
Lamis Company for Detergents Industry**

50 years

of experience and tradition as a family-owned corporation within the detergent industry.
